# N. J. OLSEN CO.

Moorhead, Minnesota

February 1, 1930

THE seeds listed herein are all of the best obtainable, carefully cleaned and tested. We believe in quality seed and handle only such as we can recommend to the farmers of the Northwest.

We select our seeds with great care to get only such seeds as are suited to the soil and climatic conditions of the Northwest. Our seed stocks must be up to our own high standard besides meeting the rigid inspection and tests of the state controlled seed laboratory. This insures the purchaser seeds of the highest possible standard.

**Terms of Sale**—Cash must accompany the order and should be in the form of money order or bank draft. Stamps accepted on remittance of \$1.00 or less.

Prices for delivery at depots in Moorhead, Minn., or Fargo, N. D. Bags are extra at their value. We do not alter prices except in extreme cases, but owing to market conditions we reserve the right to change prices without notice. Orders filled at lowest price in effect on date of receipt. We give no warranty, expressed, or implied, as to description, purity, productiveness, or any other matter, of the seeds sent out, and will not in any way be responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be at once returned.

## N. J. OLSEN COMPANY

***FOR  
BEST  
RESULTS***

## **Northern Grown Seed Corn**

**P**ARAMOUNT Brand Home Grown Seed Corn is raised in Cass County, North Dakota and Clay County Minnesota, dried and graded in the best equipped and most up-to-date corn drying plant in the Northwest. Careful hand sorting, both before and after drying, eliminates all undesirable ears, leaving only uniform, ripe, high grade seed corn.

Therefore, we urge you to insist on Paramount Brand Home Grown Seed Corn, because you are then assured the very best results that are possible to obtain. Paramount Brand Seed is sold by dealers. If you cannot obtain what you want from them, send your order to us.

**N. J. OLSEN CO.**  
**MOORHEAD, MINNESOTA**

## SEED CORN

**T**HE Seed Corn offered here was selected with the greatest possible care, dried and handled in our corn drying plant, which is complete and up to date in every detail.

**NORTHWESTERN DENT**-----\$4.50 per cwt.  
(Cass and Clay County Grown)

A Red Dent Corn that matures in about 85 days. The ears are of medium size and grow well up from the ground so that it can be cut with a corn binder.

**GOLDEN DENT**-----\$4.50 per bu.  
(North Dakota Grown)

Earliest Yellow Dent corn on earth. Matures in from 60 to 70 days. While the ears are small it is a good yielder and its early maturing qualities makes it a very desirable corn with feeders for early finishing of beef cattle and hogs. Matures anywhere in North Dakota or Minnesota.

**MINNESOTA NO. 13**-----\$4.50 per bu.  
(Cass and Clay County Grown)

A Yellow Dent that is as early as the Northwestern Dent and a more prolific yielder. Preferred by many on account of larger yields per acre. Will mature in 90 days under favorable conditions.

**FALCONER DENT**-----\$4.25 per bu.  
(North Dakota Grown)

A cross between a yellow Dent and a Flint Corn. Very good yielder both in ears and fodder. Earlier than Northwestern Dent but ears are large and uneven, yellow in color and have from eight to twelve rows.

**RUSTLER WHITE DENT**-----\$4.50 per bu.  
(Cass and Clay County Grown)

A very early White Dent producing a medium sized cob, well filled with plump kernels. This variety can be depended upon for a good crop any average season.

**WHITE FLINT**-----\$4.50 per bu.  
(North Dakota Grown)

An early White Flint with short stalks and ears. Very desirable for pasture and feeding to stock in bundles without husking.

Seamless Bags, Extra, 40c Each

GEHU FLINT-----\$4.25 per bu.

(North Dakota Grown)

Earliest corn on earth. Matures in from 60 to 70 days. Yields about as much ripe corn as other varieties, but is exceptionally valuable for "hogging off."

### MINNESOTA CORN

(Grown in Lyon County)

This corn matures nearly as early as the Home Grown varieties, will produce good dented ears and in normal years will ripen. All varieties are very good yielders and are exceptionally good for filling silos.

Northwestern Dent-----\$3.50 per bu.

Minnesota Dent-----\$3.50 per bu.

White Dent-----\$3.50 per bu.

### SILO CORN

SILO CORN-----\$2.25 per bu.

(Minnesota Grown)

A good yellow corn which will produce ears enough to be very valuable for silo filing. Exceptionally good value for its purpose.

### FODDER CORN

White Fodder -----\$1.75 per bu.

Yellow Fodder-----\$1.75 per bu.

Sweet Fodder-----\$3.60 per bu.

Kaffir Corn-----\$1.50 per cwt.

Amber Cane -----\$4.75 per cwt.

Minn. Cane -----\$5.00 per cwt.

### FIELD SEEDS

Dwarf Essex Rape-----\$9.00 cwt.

Canadian Field Peas-----5.75 cwt.

White Navy Beans, hand picked-----11.00 cwt.

Soy Beans, Minsoy -----7.00 cwt.

Soy Beans, Black-----7.00 cwt.

Soy Beans, Manchu-----6.00 cwt.

Seamless Bags, Extra, 40c Each

## POULTRY FEED

### PARAMOUNT BRAND

Our feeds are prepared from formulas worked out by one of our foremost Universities and should be as near a perfect feed as is possible to obtain. Having our own mixing plant here in Moorhead makes a great saving in freight charges against feeds which have to be shipped in and for this reason we are able to quote you lower prices on Poultry Feeds.

Chick Starter—A finely ground mash to be used until six weeks old:

Per 100 lbs., sacked	\$3.75
Per 25 lbs., sacked	1.00

Chick Feed—Pure, cracked grains thoroughly mixed, sifted to remove all fine meal. For feeding of chicks after six weeks old:

Per 100 lbs., sacked	\$2.50
Per 25 lbs., sacked	.75

Chick Growing Mash—A finely ground mash to be used in conjunction with the Chick Feed:

Per 100 lbs., sacked	3.50
Per 25 lbs., sacked	.95

Laying Mash—A thoroughly mixed, concentrated mixed feed which has produced increased egg production. A fair trial means repeat orders:

Per 100 lbs., sacked	\$2.75
Per 25 lbs., sacked	.90

### COD LIVER OIL

10 Reasons why you should mix Cod Liver Oil with your feeds:

1. Increases Egg Production.
2. Eliminates soft shelled eggs.
3. Helps to eliminate blood spots.
4. Improves Hatchability.
5. Produces Stronger Chicks.
6. Builds Rugged Bone Structures.
7. Promotes Growth.
8. Reduces Mortality.
9. Gives a Better Moults.
10. Conditions and Protects against disease.

## FEED

**W**E have made extensive improvements in our warehouse and are prepared to grind your feed as you want it and when you want it. The new mill installed is one of the best Attrition Mills on the market, and we can guarantee you satisfaction. In order to get full value from your poultry feeds, they should be mixed thoroly so that every bit of food used is a perfect blend. The mixer we are using is a fast and efficient machine and we can mix your feed promptly. At all times, we carry balanced ratio needs for both poultry and dairy, but if you have a formula of your own, we will gladly prepare it for you. Our charges are fair, and we would appreciate your trade.
